Remarks:			
<p>I find nothing here over which I think we should take issue. DD/P agrees with and recommends approval of 53 out of 59 of our recommendations. He further recommends approval of two more with minor modifications which make sense. Two of the four with which he disagrees are non-concurred in because of changed conditions since the inspection was made.</p> <p>I have marked with slips of paper the recommendations with which DD/P has not completely concurred so that you may refer to them quickly. I also marked one other which you might be interested in - - the [ ] equipment now moves to [ ] (over)</p>
